

Apple Human Interface Guidelines (HIG):

1. **Clarity:** The UI should be easy to understand, with clear language, icons, and layouts.
2. **Deference:** The interface should defer to the content; minimize distractions so that the content takes center stage.
3. **Depth:** Use visual layers, shadows, blur, and motion to communicate hierarchy and spatial relationships.
4. **Feedback & Responsiveness:** Real-time feedback on user actions, meaningful animations, haptics, etc.
5. **Direct Manipulation:** Use familiar iOS gestures (swipe, drag, pinch), allowing users to directly manipulate UI elements.
6. **Accessibility/Adaptability:** Support Dynamic Type, proper touch target sizes, VoiceOver, and color contrast.
7. **Aesthetic Integrity:** Visual design should reflect the app's purpose and behavior; simple, consistent, meaningful.
8. **Use of Standard Components:** Using native iOS UI components when possible for consistency and familiarity

Class Activities:

- Task No. 1: Open the existing NayaPay app and identify two strong points and two weak points based on the HIG given above. (5 minutes)
- Task No. 2: Use the bank transfer method to add Rs. 10,000 to your NayaPay account. What challenges did you face? Design a process (no text) through gestures by directly manipulating the UI elements. (10 minutes)
- Task No. 3: Your NayaPay debit card has been misplaced. Locate the card settings and block your card for safety. Which aesthetic integrity would you like to follow from the HIG? (10 minutes)
- Task No. 4: You sent Rs. 3,000 to your friend last night, but your phone turned off before you received a confirmation message. Check your transaction history to confirm whether the transaction was successful. What sort of feedback would you like to have? (10 minutes)
- Task No. 5: You have changed your phone number. Go to your profile settings and update your phone number in the app. What sort of deference would you like to see? (10 minutes)
- Task No. 6: Your electricity bill is due today. Navigate to the bill payment section, add the bill details, and verify the information before making the payment. (10 minutes)
- Task No. 7: You sent money but did not receive a confirmation message. Locate the Help/Support section in the NayaPay app and contact customer support to resolve the issue. What standard iOS components would you like to use? (10 minutes)
- Task No. 8: Your friend lives in Islamabad, but you can't attend his wedding as you are sick, and you want to send him a gift envelope of 5000 using NayaPay. (10 minutes)
- Task No. 9: You received a challan of Rs 5,000 for not wearing a seatbelt. Pay your challan using NayaPay. (10 minutes)
